

Notes on road inspection conducted on May 20, 2014

Get all of the roads cracked sealed as in the past.

Need to prioritize our dirt/gravel road to where we want some gravel if any becomes available from County Road G. Orin would like to see some gravel on 3<sup>rd</sup> avenue to help soft spots. Also on 1<sup>st</sup> drive between Apache Ct and Aniwa. Will need to contact to see what the fill is before agreeing to get. We do not want what we got last year.

Need to raise 1<sup>st</sup> Drive by Ted on west side then add some gravel to road base.
